

# Denture Delivery

1. You will experience some discomfort with any new denture for a few days. All new dentures need several adjustments to completely and comfortably fit your mouth.
2. You should take the dentures out every night and keep them in a clean container with a denture cleaning solution. Your gum needs rest from the denture every day.
3. Clean dentures thoroughly with a denture brush and water before putting them back in your mouth.
4. It may be difficult to talk normally with the new denture for a few days. A way to practice is to read a book or newspaper out loud for a period of time everyday. Your tongue and muscles will get used to the new denture and you will talk normally very soon.
5. Call our office if you are experiencing pain, discomfort or if you have any questions (231)347-8899.
